Full Moon in Sagittarius (Sun in Gemini)

This full Strawberry Moon may see the situation more abuzz than the usual full Moon, whether it's birds and bees or just the rumor mill in overdrive. Talk is cheap because there's too much of it, and truth is dear because everyone claims to be telling it. Your challenge is to ride the tide of tale-telling and separate the fish story from the one that really got away. There's a drop of truth in every concoction, however, and if you can find it, that will be your reward for the trip. All that glitters is not gold, but what is you can take to the bank.
